EDUCATION

Free Code Camp (Online)

-Full Stack Developer Certification

-Information Security and Quality Assurance

-APIs and Microservices

-Data Visualization

-Front End Libraries

-JavaScript Algorithms and Data Structures

-Responsive Web Design

Completed Feb 2019

Udemy (Online)

-33 Hour The Full Stack Web Developer

Completed Dec 2018

Kapitel Zwei (Berlin, Germany)

-German Language Course level B1

Completed Aug 2016

Dive Asia (Phuket, Thailand)

-Padi Open Water Scuba Instructor

Completed Nov 2010

High School Overkruin (Pta, South Africa)

-National Senior Certificate

Completed Nov 2009

KEY SKILLS

JavaScript
Node.js
React
Angular
HTML/CSS
MongoDB
PostgreSQL
MySql
RestAPIs

Web Developer

A self-taught developer looking for a chance to gain more experience and to learn in a full stack environment. I have worked on projects ranging from intelligent naming & classification software to voice recognition to mobile applications, back end server and databases.

Experience

Self Employed - Freelance Jan 2017 - Current

Main Projects:

- Rhino Assets Hybrid Mobile App

The client requested a cross platform Hybrid mobile app for fuel supply logging, management and reporting.

Features include: create, read, update, and delete, of staff, user clearance levels and assets and usage reporting

- Electronic Cost (Intelligent Document Processing)

The project was to modernize law firm billing. It can take between an hour and days to summarise the contents of a legal file, which can have upwards of a thousand pages. The idea was to automate the whole process.

Steps included OCR, document recognition, data extraction, image recognition and manipulation and data processing.

The project was a success with files that normally took 2 days to be processed, being completed in hours.

The Stack I use

Front end: JavaScript, React, Angular, Meteor.js, HTML/CSS, Bootstrap, SCSS

Back end: Node.js, Express.js, Socket.io, Java, PHP, Apache2, Lamp, Tomcat

Database: Postgres, Mongo, MySql

Testing: Chai, Mocha

Deployment: Heroku, Github

Other: RestAPIs, Apache Cordova, Git, Adobe XD, Npm, Linux

Unrelated Past Experience

Before starting developing I worked in hospitality, mainly Backpacker Management and Scuba Instructing. I will be happy to supply more detail and references upon request.
